## **OBJECTIVE:**

Consumer rights are a set of rights governed by the law that gives allows customers to have the necessary information about goods and services while purchasing. Similarly, consumer responsibilities indicate that customers have a specific responsibility towards the society and other consumers and help them to fight against the unfair practice or at least be aware of it. Financial literacy is the ability to understand and effectively use various financial skills, including personal financial management, budgeting, and investing. When you are financially literate, you have the foundation of a relationship with money, and it is a lifelong journey of learning. The earlier you start, the better off you will be, because education is the key to success when it comes to money.

## **About The Programme:**
