OBJECTIVE:

Soft skills are used to indicate personal transversal competences such as social aptitudes, Language and communication capability, friendliness and ability of working in team and other personality traits that characterize relationships between people. Soft skills are traditionally considered complementary of hard skills, which are the abilities to perform a certain type of task or activity. Through soft skills trainings, students will be able to motivate themselves to take on leadership roles so as to attract the attention of others and be able to handle interpersonal relationships.
