FATHER OF LIBRARY SCIENCE IN INDIA

Padmashree Dr. S. R. Ranganathan
12/8/1892 - 27/9/1972

The 5 Laws of Library Science

- 1. Books are for use.
- 2. Every reader his book.
- 3. Every book its reader.
- 4. Save the time of the reader.
- 5. A library is a growing organism.

Introduction:

In 2019 we are celebrating the role of libraries in the digital world. Libraries Week 2019 will celebrate and explore how libraries are engaging communities through technology, building digital skills and confidence, encouraging digital participation and inclusion, supporting health, wellbeing and education and supporting local business and enterprise. Siyali Ramamrita Ranganathan (S.R.R.) was a mathematician and librarian from India. His most notable contributions to the field were his five laws of library science and the development of the first major faceted classification system, the colon classification. He is considered to be the father of library science, documentation, and information science in India and is widely known throughout the rest of the world for his fundamental thinking in the field. His birthday is observed every year as the National Librarian's Day in India.

Objectives:

1. To commemorate the contributions of Siyali Ramamrita Ranganathan (S.R.R.).
2. To understand role of libraries in the digital world.
3. To endow with information related to Library day, library rules & regulations.
